DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 allowed.
2. The following is an examiner's statement of reasons for allowance:

As claims 1 and 5, the prior arts in the record fail to teach or make obvious to a system and method for demodulating section that performs quadrature amplitude demodulation of received data based on the signal points arranged by said signal point arranging section that arranges signal points based on power ratio information which is a ratio of transmission power of a common known signal to transmission power of a signal included in a channel that does not have a known signal.

As claim 3, the prior arts in the record fail to teach or make obvious to a system for demodulating section that performs quadrature amplitude demodulation of received data based on the signal points arranged by signal point arranging section that arranges signal points based on an average power ratio which is a ratio of reception power of a common known signal transmitted from a base station apparatus to an average value for each processing timing of reception power of signals included in a channel that does not have a known signal.

As claim 4, the prior arts in the record fail to teach or make obvious to a system comprising modulating section that switches a modulation method according to an estimated channel condition and modulating transmit data; power ratio information calculating section that calculates power ratio information which is a ratio of transmission power of a common known signal to transmission power of a signal included in a channel that does not have a known signal and transmitting the calculated power ratio to the terminal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven HD Nguyen whose telephone number is (571) 272-3159. The examiner can normally be reached on 8-5.
